Your Local Dealer

WHAT WE DO

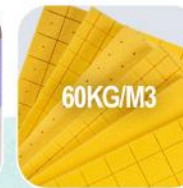

Regular Density 80kg/m³ PVC FOAM

Product Advantage

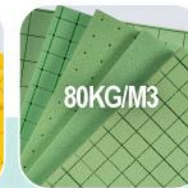

- Thickness tolerance (tolerance: **±0.2mm**) density tolerance (**80±3kg/m³**)
 - Color to distinguish the density, easy to choose and use
 - Thickness customization (**min 1mm~∞**)
 - **Pre grooved and punched, works right out of the box**
 - Large stock with regular types (**Warehouse area 5000+m²**)
 - CNC processing available
- (A total of 10 : 3-axis 5-axis CNC machine tools)**
- **Close cell rate high, waterproof**
 - **Self-extinguishing** from fire (Certificate)

WHY CHOOSE US

All materials buy from Union:

Save your

20%~30% cost

Free service

Free sample

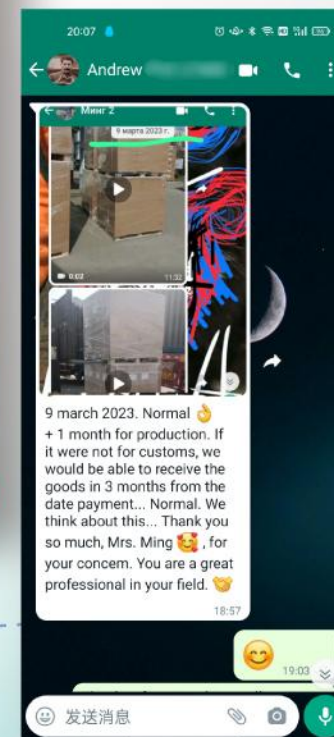

Free packing design

Free technical support

None MOQ

Unsensitized purchasing experience

Order delivery process visualization
one-stop service

OUR CASE

Case 1

In case 1, weight is reduced by 200kg, so the product can save much fuel and been sell better

Malaysian customers wanted to replace balsa wood with our PVC foam for shipbuilding, reducing weight and achieving better fuel economy. By calculating the amount of material required for each boat, providing data and **weight reduction solutions**, we were able to reduce the weight of each vessel by 200KG for our customers.

Case 2

In case 2, Have detail load record include pictures and documents, help customs clearance faster

The German customer encountered the problem of customs inspection at the port of destination, **and the customs needed to know the details of the goods at each location**. We took photos and videos of the whole process during loading, and marked the details and location serial number of each product, and provided a packing list, which successfully **helped customers solve customs clearance problems**.

HOW TO COOPERATE

bring A grade
PVC foam
to your
factory

E-mail 1

Provide information

- Product density
- Product quantity
- Product surface treatment
- Product size
- Application
- Destination port, Incoterm

E-mail 2

- Confirm price
- Confirm all information
- Do the payment

E-mail 3

- Confirm goods quality
- Confirm transport details
- Find a customs clearance agent

+

Provide information:

- Detail quotation
- Technical details
- Test report
- Other cases similar with yours

Union

- Confirm payment
- Record order into ERP System
- Produce product
- QC check
- Feedback
- Delivery

Union

- Send back shipping documents
- Send back QC documents

Union

PRODUCTION AND DELIVERY PROCESS

Order Confirmation

Production

A. Record into ERP system and technical section reconfirm the product specifications and processing technology

Quality Control

A. Test final products
B. Sampling and inspection
C. Issue test reports

Packing

Delivery

A. Check consignee information
B. Arrange shipment with forwarder
C. Support insurance for containers

After-Sale Service

A. Transportation tracking;
B. Customer receipt tracking;
C. Product use feedback;

OUR TEAM

Kyrie Song
General Manager / Technology Manager

- 10 years experience in composite material industry
- Expert: autoclave, vacuum infusion, RTM process
- 15 years management experience

Kurt
Engineer

- 4 years' study in the USA
- Proficient in CAD/PRO E/SW
- Providing additional value service of equipment

Lan
Sales Manager

- 7 years experience in composite industry
- Good at new projects promotion
- Professional in RV, construction, shipboating, insulation

Ming
Sales Manager

- TEM 8 Grade: English communication expert
- 5 years foreign trade experience, win 60+ customers
- Main Service Market: Europe, Oceania, Middle and Southeast Asia, Middle East

Jenny
Sales Manager

- 8 years sales experience
- Professional in chemical parts of composites industry
- Good at providing one-stop service

Betty
Sales Manager

- Expert in winding / pultrusion / RTM 5Years
- Focus on resin and fiberglass better bonding
- Understand the usage habits of each market worldwide

Summer
Sales Manager

- TEF 4 language certificate fluent in French
- Vinyl epoxy shipbuilding expert
- Integration of different process auxiliary materials

Beryl
Logistics Manager

- 4 years logistics management
- Prioritize customer satisfaction
- Customized loading management service

Fredy
Customer Service Manager

- 4 years professional after-sales experience
- Good at QC, ERP system
- Timely reply within 3 hours

OUR GUARANTEE

A FREE SERVICE

- Free simple
- Free agent purchase
- Free LCL

COMMITMENT TO QUALITY

Full replenishment for quality problems

ENVIRONMENTAL COMMITMENTS

Non toxic halogen free
